

SAS Microbial Air Samplers

UK Pricing Effective from 1st January 2025

The SAS range has been at the fore front of environmental monitoring for over 40 years. The distinctive yellow samplers are used by many of the world's leading pharmaceutical companies to demonstrate GMP compliance within their manufacturing facilities.

The SAS product range includes handheld portable devices, including the fast Super 180 USB and twin head Super Duo USB a specialist Isolator sampling unit and a compressed air sampler. All units are supplied ready to use with battery chargers, carry case and calibration certificate included (where applicable).

A full range of Redipor® prepared media is available for use with the SAS air samplers and to compliment environmental monitoring applications.
